Experience

Pre-K ESE Teacher (Volusia County School Board)
June 2019 – March 2020 Champion Elementary
August 2010 – June 2019 Horizon Elementary School

My responsibilities include, but not limited to maintaining current certification, growing and developing professionally, maintaining classroom management, student supervision, attending faculty meetings, protect instructional time, being a role model, maintaining student records, knowledge of content and pedagogy, knowledge of students, designing coherent instruction, designing student assessments, establish a culture for learning, classroom management, communication with students, their family members, colleagues, and administration, engaging students in learning, flexibility and responsiveness, participating in professional communities.

Paraprofessional IV / Substitute Teacher (Volusia County School Board)
2009 – 2010 Pathways Elementary School
2001 – 2009 Spruce Creek High School

My responsibilities include, but are not limited to, facilitating the teacher with classroom management, assisting students with class work as needed, and completing any other duties assigned by teachers or administration, including: organize centers, supervise classroom when required, and assist in preparing and implementing lesson plans and / or materials for students. School Administration also calls upon me to substitute in classrooms throughout the school.

Web Master (preclassroom.com) 2015 - Present
Created the conceptual design and the interface for the Pre-K teachers and parents of Pre-k children as a repository of resources accumulated to enhance and reinforce skills needed to be successful not only in Pre-kindergarten but also establish a solid foundation of skills for students entering Kindergarten. The website is an extension of many Pre-K Classrooms around the world and facilitates the need of many teachers to integrate technology into their course curriculum.

Education

Educational Technology Leadership - Webster University
June 2016 – Present
MET Master of Educational Technology
